MANUAL COLD LAMINATOR

Unique Features!

Manual roll-to-roll cold laminator, 1600 mm.
130mm silicon rolls, **material thickness up to 30mm.**

Quick and easy to use, it allows you to save labor and improve productivity by increasing the quality of your work. Moreover, from today you can also laminate without liner with **"linerless" laminations.**

High efficiency

No fold or bubble, always guarantees excellent results even in the lamination of wider supports.

Thanks to the **pneumatic lifting** system, it allows you to speed up the loading and picking up of the material. The Xlam 1600 Top Manual 2.0 laminator is the ideal solution for those looking for a **simple, cheap and reliable solution.**
